Observers Committee

Members of this committee are people with experience in long term planning (either senior or junior) but also an outstanding involvement with projects in and with Africa. OC will be an intermediate body, conveying ideas between STC and WGs. Members participate in WG discussions, they review papers, attend meetings and participate to the editing of the reports together with the WGs they are assigned to follow. OC members can easily report any Ethics issues or just a problem with the WGs.
