Support

For other doubts or if you could not find us there, please send an email to [dashboard-support@cernNOSPAMPLEASE.ch](mailto:dashboard-support@cern.ch).

Dashboard Machines Overview

The machines are visible in [JUDY](#)

Dashboard applications

- Dashboard Earth
- Siteview Gridmap
- Site Status Board
- API for CMS AnalysisSupport
- Export of Job monitoring Data from PANDA DB into Dashboard
- Export of Job monitoring Data from ATLAS T0 DB into Dashboard
- ATLAS Job Monitoring development (via MSG)
- Requirements for MSG for ATLAS job monitoring
- VO-specific availability claculation
- Dashboard ProdAgent monitoring
- CMS Critical Services
- SAM Visualization
- WLCG Transfer Monitoring
- XrootdMonitoring
- ATLAS DDM Accounting
- ATLASDQ2GetPutMonitoring
- ATLASDDMDashboardRucioMigration
- Cloud monitoring

Description of Dashboard API for getting Job Monitoring data

- Task/Job monitoring for analysis users

Technical Topics

- Virtual Machines & Build System Presentation (20-07-2010)
- Commonly used tools, libraries and coding style guide
- Documentation of dashboard framework support for authentication
- Installing MonAlisa monitoring on dashboard machines
- Documentation of the dashboard Services library
- hBrowse framework documentation

- XbrowseFramework
- WebAnalytics
- NoSQL
- ElasticSearch upgrade procedure
- ElasticSearch user authorization
- ElasticSearch evaluation
- ElasticSearch Optimisations
- Dashboard Authentication and Authorisation
- Command line tool to make screenshots of web pages with dynamically loaded contents

Dashboard Logo

- Small
- Medium
- Large
- HUGE!

If you need the logo in a different size or to make some changes to it to, e.g., create a logo for your own application, here is the Adobe Illustrator original.

Support and Maintenance Guides

- DDM Dashboard : Service Maintenance Guide [?](#)
- DDM Dashboard : Instructions to AMOD: ADC Manager on Duty (ATLAS login required but the Service Maintenance Guide covers the same topics.)
