%ATLASLOGO% ATLAS Computing

Introduction

This page links to the ATLAS Computing (including Software) TWiki pages.

By design, these contain information which benefits from regular updates by users. Because of this concept (user driven), the TWiki is less well structured than the standard ATLAS Computing Web [↗](#) (centrally managed) - the latter may provide a better starting place for tree-like searches for more robust information.

Useful links (also see leftbar):

ATLAS Computing Web ↗	"Standard" web, containing information which is more robust
ATLAS TWiki	Gives links to TWiki pages for Detectors, Physics etc
Computing Workbook	Primer for Computing in ATLAS
Physics Analysis Workbook	Primer for Physics Analysis in ATLAS

For an introduction to the TWiki, go to the ATLAS TWiki.

If you have comments about this page or questions as to where and how to insert information into the ATLAS Computing TWiki, please contact Stephen Haywood [↗](#).

Site Map

This is a map of what is *actually* in the ATLAS Computing TWiki web - if you cannot find what you are looking for, try the standard web [↗](#).

The following links are classified in various categories, in which they are stored in alphabetical order.
