# Workflow Team Meeting - July 24 4PM CERN time

## Vidyo Link [↗](#)

## Attending

- FNAL : Jen, Luis, Sean, Seangchan
- CERN : Andrew, Alan

## Personel

July 24 --> July 31	Xavier
July 31 --> Aug 7	Joseph

- Please fill vacations plans for July/August for CSA14 campaign:  
<https://twiki.cern.ch/twiki/bin/viewauth/CMS/CompOpsPlanningVacationSummer2014>

(Or tell Oli | CW | CP)

- Jen will be taking off July 28 - Aug 8 - may have limited access evenings
  - ◆ Juan will be working as a US Shifter while I am on vacation so we will have eyes on the system.
  - ◆ Welcome to Sean! He will be a US shifter, also acting as eyes on the system from FL while Jen is on vacation and putting in some service hours starting this fall.

## News

- Sean is Joining the Workflow team as a US shifter! Please introduce yourself! \* 2nd yr grad student in SUSY, Physics
- The "super high priority workflows" we were supposed to have gotten Monday, have yet to arrive. We haven't heard much more...

## Joesph's notes

## Sean/Juan's notes

## Site support

- RWTH - was in drain, I talked to John and he didn't know why it was in drain. We brought it out and I ACDC'd the WF's that were failing because it was in drain, looks like my ACDC's were successful. Who put it in drain? This is a reminder if you change the state of a site please e-log so we have a paper trail!!!!

## Agent Issues

- Multiple schedd's running on several different agents
  - ◆ the "symptom" was that we were seeing lots of "No Job Report" errors over the weekend/monday
  - ◆ OK Dave, how did you discover this?

- ◆ how did you fix this? Is this something the team leaders/operators can do or do you need special permissions? Or do we just complain to the right people?
  - ◇ at this point if you see multiple schedd's running e-log in the glidinwms e-log and email the CRC

## Redeployment plan

- 98, 201 and 142 all re-deployed!

## Workflows

- Still waiting on the high priority stuff we were promised last week.
- Old workflows from April still in running-closed: 16076 [↗](#)
- Old workflows from April still in assignment approved, mostly ReReco, some Task Chain: 16078 [↗](#)
- Old workflows from May still in assignment approved mostly TaskChain, Some ReReco: 16084 [↗](#)

## miniaod's

- Upgrade workflows - I did another round of ACDC's for Dave on them and got no where. Is it time to send them back to the requestors?

## Rereco

- Old ReReco's sitting in complete :15703 [↗](#) can we move them to closed out or would you like to try to recover the last 1%. I'm thinking the data is already being used.

## Store Results

- 4 pending tickets from 4 mo ago and they have been completed with the help of Alan
- no pending work
- with Savannah going down we have no way of getting requests which should make doing store results easy.

## Andrew

- nothing to report
