# Workflow Team Meeting - Dec 11 4PM CERN time

Vidyo Link [↗](#)

## Attending

- Jen, SeangChan, Julian, Xavier, Andrew

## Personel

Dec 11 -> Dec 17	Sara
------------------	------

- EU - Do we have shifters over the Holidays?
- Holiday vacation plans
  - ◆ Julian will be in Colombia 25th Nov - 25th Dec - Working plans on being online. and will be on holiday again Jan 1st-7th
  - ◆ Luis will be in Colombia Dec 20-through New Year will get us exact dates soon
    - ◇ Traveling on Dec 18, back Jan 5
  - ◆ Jen will be in MN Dec 26-Jan 2 and will have limited internet access
  - ◆ Ian & Sean will be around but nothing prolonged
  - ◆ Alan Dec 13-New Years Brazil - if you need him you have to call Alan's Grandmother, he will post number in Twiki 😊
  - ◆ Seangchan will take a couple days off, but not telling us when wink
  - ◆ Dima will be in FL next week, but will be around over the Holidays
  - ◆ John (site support) Traveling on Sun 21, in Ecuador till end of Jan. Off until Jan 5, working remotely Jan 5-end of Jan
  - ◆ Jorge - Traveling Dec 19 - Jan 5 back on 6th not planning on working remotely - transfers
  - ◆ Andrew L(a) will be around (officially back on 5th Jan)

## News

- Ajit will help a bit watching things during the holidays, but he needs still to catch up.
- Next 2 wks will be virtual due to Christmas and New Years! Relax and enjoy the Christmas Production :P
- Because we will not be having meetings making sure we keep the chatter up on issues we are seeing in elog and actually reading e-logs mail will be extra important!

## EU Operators Meeting Notes

- we need more EU operators, and the Belgiums are having issues getting people setup
  - ◆ Sara - continuing, but working on her PhD but will not be around probably around first 6 months but not 2nd
  - ◆ Jasper - will not be available
  - ◆ Xavier - really busy
  - ◆ No new students coming in for next year so they will no longer be able to have a full person credit, we need to find a new institute to give us time.
- None showed up to the meeting!
- Division of responsibilities
  - ◆ Check wmagent/components up
  - ◆ Check workflows with high error %
  - ◆ Check sites with low running/pending %

- Credits and stuff. - new operators. Julian will work with Christoph to get operators for other institutes
- Campaigns going on: RunIIFall14GS, Phys14DR, Sprin14miniaod
- Julian can be back watching things EU time after the 27th
- Nobody watching system EU time next week, Sara is traveling but we can ask directly what days she's available.

## Site support

- FNAL out of drain, please inform if any issues appear.
- Sites to test: T2\_RU\_INR, T2\_EE\_Estonia
  - ◆ RU\_INR: [https://ggus.eu/index.php?mode=ticket\\_info&ticket\\_id=110190](https://ggus.eu/index.php?mode=ticket_info&ticket_id=110190), I sent a test workflow jbadillo\_HIG-Summer11Leg-Backfill-00176\_00057\_v0\_\_141216\_142722\_1289 but still having same problem.
- Sites temporarily in WR: T2\_US\_Nebraska, T2\_PT\_NCG\_Lisbon, T2\_IN\_TIFR

## Agent Issues

- Proxy issue on Submit2 - where do we stand? Is Alan really the only one who can keep the proxies up?
  - ◆ Dave is planning on putting his proxy in place, log collect jobs will fail, but they are failing anyway. What is plan B for the Christmas Production if the Proxies on the SL6 machines can't be updated until we can get Alan's attention?
  - ◆ We are asking SeangChan and Dave to update the proxy and get it /keep it working
    - ◇ Seangchan will reply to the email thread - if we need to run any command or line.
    - ◇ We need a production - central proxy instead of a personal proxy.

## Redeployment plan

\* Upgrade condor on submit1 - only job. Jen will tell Krista.

## Workflows

- Priorities during break: Christoph  
<https://indico.cern.ch/event/354039/session/10/contribution/182/material/slides/0.pdf>
1. TP2023HSCALGS and TP2023HGCALGS (Gen-sim)
  2. Fall14DR and Fall14DR73 (Digi Reco)
  3. Phys14DR for HLT and Summer12DR for Gen validation (Digi Reco)
  4. Phys14DR for HLT (Digi reco) RunIIFall14GS (Gen sim)
  5. Data Reco 2013A - Summer12DR and Phys14DR for Physics.
  6. Summer11LegDR - Summer12DR (Digi Reco) Summer12 - Summer11 (Gen Sim)

Waiting to be returned to requestor: <https://cms-logbook.cern.ch/elog/Workflow+processing/18059>

- Dima is getting some answers.

## miniaod's

- still waiting for answer for the 100% failed wfs.

## Rereco

## Store Results

\* Like 300 requests injected (RunIIFall14GS)! plenty of work for a while.

## SL6 testing/SL5 Decommissioning

- seems we are still having issues getting LogCollect files to work on SL6. Who can we assign to look into this?
  - ◆ This is the GGUS ticket to follow up  
[https://ggus.eu/index.php?mode=ticket\\_info&ticket\\_id=109632](https://ggus.eu/index.php?mode=ticket_info&ticket_id=109632)
  - ◆ Last update: Not that simple.
- Proxy Issues = see above

## Andrew

- made a pull request needs to talk to Seangchan and Alan, they are holding the merging until validation is done and then will do the pull after Tues.

- We need to configure WMAgent to inject them into PhEDEx instance

## AOB
