### Merging Scripts

- Allie merged condor\_overview.py and condor\_global\_overview.py into condor\_overview2.py. There is a pending pull request for the script: <https://github.com/CMSCompOps/WmAgentScripts/pull/136>
- Paola and Allie are working on making sure the new merged assign.py script is up-to-date and can handle merge tasks within a task chain.
- Paola is working on merging the various resubmitting scripts (resubmit.py, extendWorkflow.py, resubmitUnprocessedBlocks.py, and resubmitWithBlockBlacklist.py) into one all-inclusive script.
