Reprocessing and Production Team Meeting - June 9 4PM CERN, 9 FNAL time

Vidyo Link

- <https://indico.cern.ch/event/540923/>

Attending

- FNAL: Jen, Jorge, Gaston, Dima, MAteo
- US: Alli
- CERN : Alan, Sebastian, Paola, Andrew
- Korea :

Personnel

- Jen Vacation July 25-29
- SeangChan Jun 2-July 5
- Jorge June 13-24

News - Dima

- Nothing major -
 - ◆ for the DR80 - If we get miniAOD v1 done we can close whatever we have, what they really need is miniaod v2, so if we have something stuck in tails for
 - ◆ JR is putting the conditions in the Unified closeout script, and it's in a config file that is easily cleared out when we are done

Top issues affecting production

- Duplicates: <https://cms-logbook.cern.ch/elog/Workflow+processing/24533>
 - ◆ duplicates showed up after things were approved
 - ◆ get the files with the duplicate limi's then do a search in PhEDEx for file creation
 - ◇ Jen will get the list of files, Jorge will do the PhEDEx search
- premix: <https://cms-logbook.cern.ch/elog/Workflow+processing/24577>
 - ◆ wf's have been cloned and resubmitted
 - ◆ submit failed why are we getting submit fails when HLT and Alan will figure out why it happened
 - ◆ 771101 - no sites available is happening in the Alan and Paola are looking at it so
- backfill: <https://cms-logbook.cern.ch/elog/Workflow+processing/24553>
- High number of workflows in assist-man again - we were caught up last Friday.. what happened?
 - ◆ Wallclock time - error status in Condor, 2nd is for jobs running longer than 2 days, pending jobs longer than 3 days
 - ◆ we don't understand why we have so many held jobs
 - ◆ we need to pass that info to GlidinWMS people, Farruk, may also be a site that has a config moving to held, looks to be more a buggy condor issue
 - ◆ Paola will talk to Farruk and get this worked out.
- wrong config on miniAOD - <https://cms-logbook.cern.ch/elog/Workflow+processing/24606>

- ◆ if it's the same issue reject, add to hypernews, elog and done

Site support -

Date	Site	Into the Waiting Room	Out of the Waiting Room	Into the morgue	Out of the morgue

Transfers - Jorge

- stuck transfers from CERN to Nebraska because the link isn't fully commissioned yet
- new PhEDEx version for central agents will be updated is already done, backlog at CERN MSS of 600TB

Workflows

MiniAOD

-
- NA

Rereco

Store Results

- https://ggus.eu/index.php?mode=ticket_info&ticket_id=119273

Agent Issues

Agent redeployment

Migration

Merging Scripts

- assign.py script

Andrew

AOB
