WLCG-OSG-EGEE Ops' Minutes Mon 20 Jul 2009

- Date: Mon 20 Jul 2009
- Agenda: 64824 [↗](#)
- Chair: MaiteBarroso
- Minutes: SteveTraylen
- Minutes from previous meetings: WlcgOsgEgeeOpsMeetingMinutes
- Distribution: grid-operations-meeting@cernNOSPAMPLEASE.ch

Summary

The UK/I region highlighted an incompatibility between VOMS when configured in particular style and mod_gridsite as part of the WMS. This is being investigated now by the EGEE EMT.

Attendance

Please note the attendance list is largely incomplete for this meeting since no record was made.

EGEE

- Asia Pacific ROC:
- Central Europe ROC: Malgorzata Krakowian
- OCC / CERN ROC: Steve Traylen, Maite
- French ROC:
- German/Swiss ROC:
- Italian ROC:
- Northern Europe ROC:
- Russian ROC: Vera Hansper
- South East Europe ROC:
- South West Europe ROC:
- UK/Ireland ROC: Jeremy Coles
- GGUS:
- GOCDB: Gilles

WLCG

- WLCG Service Coordination: Harry Renshall

WLCG Tier 1 Sites

- ASGC:
- BNL:
- CERN site: Harry
- FNAL:
- FZK:
- IN2P3:
- INFN:
- NDGF: Vera Hansper
- PIC:
- RAL: Jeremy Coles
- SARA/NIKHEF:
- TRIUMF:

OSG

Feedback on Last Week's Minutes

None was given.

EGEE Items

	c-COD Team
From	ROC Italy
To	ROC Central Europe

- Report from cCOD:
- Last week we handled some ticket expired and old alarms as usual.
- there is just a site (UKI-LT2-UCL-CENTRAL) that is in downtime since June and has a ticket opened since May 22nd.
- I've suggested the ROC_UKI to change the site status in "uncertified" in order to stop the raising of the alarms, until the site will be ready to come back in production. At least fo now, ROC_UKI has just changed the expiration date of the ticket to Aug 18th (the end of the downtime of gw-4.ccc.ucl.ac.uk). The downtime of the other host will end on July 30th.

PPS Reports and Issues

- Please find Issues from EGEE ROCs and general info in: <https://twiki.cern.ch/twiki/bin/view/LCG/OpsMeetingPps>
- gLite3.2.0-PPS-UPDATE04 is available for pre-production from this morning. It contains new releases for BDII, LFC mysql and DPM mysql in SL5. It also contains new versions of yaim core and yaim clients.

gLite Release News

- Please find gLite release news in: <https://twiki.cern.ch/twiki/bin/view/LCG/OpsMeetingGliteReleases>
- Release of UPDATE 50 to gLite 3.1: gLite-WN. New version of grid-cm-* packages to remove /opt/glite/lib/python/logging. This is to address GGUS ticket 50148, only happening in glite-WN version 3.1.31-0. In fact this private logging version was only ever required on SL3 and can cause problems for people using private python 2.5 versions with the supplied 2.3 versions.
- Release of UPDATE 51 to gLite 3.1, including new release of yaim clients, new version of DPM, new version of LFC, new version of yaim LFC

EGEE Items From ROC Reports

- **ROC UKI:** Published to LCG-ROLLOUT but worth mentioning here for those who missed it: Eventually RAL Tier-1 found that the cause of the wmpoxy issue they had (not finding the VOMS attributes) was that the mod_gridsite part of the WMS wmpoxy service does not recognise new format VOMS credentials . The new style VOMS credentials are created when using the --newformat switch on the VOMS server voms_install_db command see <https://edms.cern.ch/file/973684/1/voms-guide.pdf> (page 19). Details of the differences between old and new formats can be found here:
 - ◆ <https://savannah.cern.ch/bugs/?110894>
 - ◆ <https://savannah.cern.ch/bugs/?117273> The new /correct VOMS credentials are not that new , the above bug reports are from 2005, but it looks like many (presumably all other?) VOMS

servers are still issuing the incorrect/old format. There is now a bug report about the wmpoxy/mod_gridsite problem we found here <https://savannah.cern.ch/bugs/?53314>. We can't move forward much with our plans for the WMS until we've found a fix for this problem, but at least we know the cause.

The ticket has been raised with the EMT. In particular a fix is on the way for gridsite and the WMS on SL5. At this time it seems a backport will not be provided. The situation is still being investigated and evaluated by Demitris though.

gLite 3.0 VOMS servers - VOMS-client incompatibility on the way!

The following VOMS servers are running gLite 3.0 versions:

- <https://grid12.lal.in2p3.fr:8443/vomses> (16 VOs)
- <https://voms.gridpp.ac.uk:8443/vomses> (20 VOs)
- <https://grids13.eng.it:8443/vomses> (4 VOs)
- <https://voms.kek.jp:8443/vomses> (8 VOs)
- <https://voms.grid.sinica.edu.tw:8443/vomses> (6 VOs)
- <https://glite-io.scai.fraunhofer.de:8443/vomses> (1 VO)
- <https://voms.ndgf.org:8443/vomses> (9 VOs)
- <https://skurut19.cesnet.cz:8443/vomses> (6 VOs)

As announced on 3 July*, there is a version of the VOMS-client currently in certification which is incompatible with the 1.7.x (gLite 3.0) versions of the VOMS server. These VOMS servers must be upgraded as soon as possible.

AOB

- APEL accounting system. Problems with publishing in June. Tier2 reports not to good due, delay in submission. APEL problems are solved but a lot of catchup is now happening. Broadcast will be sent later today to the affected sites.

Sites will need to be republish results for June.

Next Meeting

The next meeting will be Monday, 27 Jul 2009 14:00 UTC (16:00 Swiss local time).

- Attendees can join from 13:45 UTC (15:45 Swiss local time) onwards.
- The meeting will start promptly at 14:00 UTC (16:00 Swiss local time).
- To dial in to the conference:
 - ◆ Dial +41227676000
 - ◆ Enter access code 0148141

These minutes can only be changed by members of:

- Set ALLOWTOPICCHANGE = WLCGOpsMeetGroup
