## General comments

[JK. Nilsen Review 26.05.11 DJRA162 v4](#) [JK. Nilsen Review 26.05.11 DJRA162 v4](#)

The document presents a status report and work plan for interoperability and integration in EMI. The document is in general quite to-the-point and fairly readable. It is, however, easy to get lost in all the sub-sections (in particular in section 4.2 - integration work plan). To use this document as a work plan, it would be helpful with a summary table containing objective, affected component and due month.

Given such a table (and depending on some of the more detailed comments in the attached document) I'd be happy to accept this deliverable.
