General comments

The deliverable overall is good, however there are certain ambiguities and minor mistakes that needs to be addressed for the next version. The detailed comments on the content can be found inside the document.

Additional recommendations (not affecting the document content, e.g. recommendation for future work)

Detailed comments on the content

Note 1: The reviewers must list here any observation they want to track explicitly and that require interaction with the authors

Alternatively all changes must be listed in the document itself using Word change tracking features (if you use Word)

Note 2: These comments have to be explicitly addressed by the authors and the action taken must be clearly described

N°	Page	Section	Observations And Replies	Is Addressed?

2				
3				
4				

Any other modification, spelling or grammatical corrections, etc must be done directly in the document using tracked changes or similar mechanisms that allows the authors to identify which correction is suggested.
