

DNA1.3.2 - Technical Development Plan

Technical Development Plan: This deliverable provides the details of the technical development plan for all EMI services. It contains an initial status assessment, a list of known requirements and their prioritization and a plan with deliverables and milestones for each Product Team. The plan contains the details for the first year of development and longer-term high-level plans for the following years. It is revised periodically and at least every twelve months with increasing level of details. It is coordinated by the Technical Director, but requires input and active engagement from all WP leaders and Product Team leaders (M11)

This is an update of DNA1.3.1 - Technical Development Plan (M3) [↗](#)
