

## DNA2.2.3 - Training Plan (PM30)

This document presents the EMI training plan including the types of training, the training targets, the organization of training events, and the expected collaboration with other projects [PM30]  
This is an update of DNA2.2.2 Training Plan (PM18)

From the EC report on the D2.2.2 Training Plan (PM18):

This deliverable is an update of D2.2.1 and thus the comment made above (sic: As this deliverable is an update of ..., the executive summary should have highlighted the main differences) applies to this deliverable as well. It provides a comprehensive and thorough overview of EMI training in all of its incarnations, building on the previous document very extensively; moreover, it is clearly written. This version contains plans for the forthcoming period as well as reports on the training carried out in the previous period.

From the EC report on all deliverables updated periodically:

For deliverables that are just updated versions of previous ones, they should highlight what are the main differences compared to the previous versions
