EMI Nagios Service Reference Card

Daemons running

Init scripts and options (start|stop|restart|...)

Configuration files location with example or template

nagios-arc-plugins

- Available as an online PDF [or](#) as HTML in the nordugrid-arc-nagios-plugins-doc package.

UNICORE probes

Section 2.2

(http://unicore.eu/documentation/manuals/unicore6/files/nagios-probes/manual.html#_configuration_guide) and sections 2.3.1 - 2.3.15

(http://unicore.eu/documentation/manuals/unicore6/files/nagios-probes/manual.html#_check_activemq) of the probes guide.

Logfile locations (and management) and other useful audit information

UNICORE probes

Section 2.2 of the guide:

http://unicore.eu/documentation/manuals/unicore6/files/nagios-probes/manual.html#_configuration_guide

Open ports

Possible unit test of the service

UNICORE probes

Described in test plan:

https://twiki.cern.ch/twiki/bin/view/EMI/UNICOREMonitoringProbesSVVP#Unit_tests

Where is service state held (and can it be rebuilt)

Cron jobs

Security information

Access control Mechanism description (authentication & authorization)

How to block/ban a user

Network Usage

Firewall configuration

Security recommendations

Security incompatibilities

List of externals packages that are not maintained by the supported OS.

Other security relevant comments

Individual probes documentation

DPM Nagios probes

- [DPM Nagios probes](#)

UNICORE Nagios probes

For UNICORE the probes documentation is available here:

<http://unicore.eu/documentation/manuals/unicore6/files/nagios-probes/manual.html>
