There was a brief storage accounting discussion in EGI-TF 2010 accounting session.

Jon Nilsen gave an overview [?](#) of EMI's plans for storage accounting and asked for requirements for storage accounting from EGI and the user community.

John Gordon (session chair) pointed out the importance of working with OGF to make the chosen storage accounting records standard.

John Kennedy (OGF and WLCG) was eager to help out with writing documents, OGF forms and such.

There was then a brief discussion of various possible requirements and challenges, but no real requirements surfaced.
