

ITTF meeting 16-Feb-2012

Participants: Björn, Laurence, Gabor R., Christian, Danilo, Ricardo, Ivan, Shiraz, Balazs, rrdopazo, Samir, Florido, Jozef, T.Wolak

Excused: Massimo, Andrea C.

Place: Skype Skype contact: lund.room.1 Phone bridge: +46462884608

Minutes:

- Welcome and head-count
- Proposed work-plan
 - ◆ Went through work plan
 - ◆ Plan is relative to RC3 release date. If this date is shifted, our plan will also be shifted.
 - ◆ 25 tests were endorsed and will be circulated to the PTs.
 - ◆ What about Debian? Up to the product team, not specifically targeted yet. Debian in a very shaky state.
- Test definitions
 - ◆ We will not tell details about integration tests, this is up to the PTs.
 - ◆ The short descriptions are meant to be high-level. The PTs are responsible for providing test plans and test reports.
 - ◆ The PTs will have to implement the tests within 7 March
 - ◆ Comments: The short descriptions may be a bit general, may risk that PTs do the simplest possible tests.
 - ◇ We need to rely on PTs to make the tests useful.
 - ◆ Went through the test descriptions on EmiJra1TaskForceIntegrationTesting
 - ◆ Three columns should be added to the table: "Implemented y/n", "Automatic (Nagios) or manual", "Link to test description/plan"
- Practicalities
 - ◆ Testbed preparation
 - ◇ Need to know deployment scenarios to setup testbed before giving instructions
 - ◇ Give PTs generic instructions for the test bed, how to access, use (Danilo)
 - ◇ Should have a chat room with all sysadmins
 - ◇ Special configuration requests should be given from PTs to Danilo
 - ◆ Regular meetings
 - ◇ No meetings needed
 - ◇ A chat room will be set up for quick communication
- AOB
