# PriorityBug: Savannah Statistics Example

For this example we want to see what the average time to close a critical bug was between 1/1/2009 and 10/9/2010 in gLite.

The value of average time greater than 100 days for a critical bug is totally unacceptable.

To ascertain the cause of these huge delays in bug fixing, we need to look at these results in conjunction with BugSeverityDistribution

**Average time to fix/release a bug [overall result all bugs]**
