General comments

The document is well written and is acceptable as it is. The only improvement I recommend is to expand the References section, which currently contains just one entry. In particular it would be useful to have references to the many tools and technologies mentioned in the document.

Lorenzo Dini 27-04-2011: 47 references have been added to the most relevant technologies.

Additional recommendations (not affecting the document content, e.g. recommendation for future work)

Detailed comments on the content

Note 1: The reviewers must list here any observation they want to track explicitly and that require interaction with the authors

Alternatively all changes must be listed in the document itself using Word change tracking features (if you use Word)

Note 2: These comments have to be explicitly addressed by the authors and the action taken must be clearly described

N°	Page	Section	Observations and Replies	Is Addressed?
1	xx	x.y	Sequence of comments and replies separated by twiki signature and date	
2				
3				
4				

Any other modification, spelling or grammatical corrections, etc must be done directly in the document using tracked changes or similar mechanisms that allows the authors to identify which correction is suggested.
