

ETICS gLite testing

This section reports both the coordination of the testing activities related to gLite / LCG and the corresponding technical information

Meetings

- Minutes of coordination meetings
- Action Items for people (Updated: April 5,2006)

1 Andreas To provide a prototype (.PPT, whatever else) of the kind of format he'd like to get on the long term from a test framework, to give an idea of what can be done together to provide it. Done:
LCGgliteTestPresentation

2 Alberto / Meb Define a possible structure for the test metadata and the corresponding way to register the test into the ETICS system.

3 Meb / Mario Define into some detail the possible system functionality and structure of the etics_test command : What will it do ? What parameters will it require still open

4 Marian, Matvey First test with the UI installation; coordinate with Maria and Mario when possible. In Progress

5 Marian Kick" Maria and Mario to start using the existing NMI platform. provide required information for them to start Done

6 Andreas Set up a reference web page with a summary of the existing tools, frameworks abd related responsible / developers people. Done: LCGgliteTestInventory

Prototyping Information

- UI in user space installation

The script is attached to this wiki section at the bottom of the page

- Proxy Handling / Delegation
- Working Operational Scenarios
