Quick Time

Title: Make your own video with QuickTime on the Mac

Duration:
2' 36"

Public

Material
Screen capture with voice over

Description
A step-by-step video tutorial on how to do a screen recording using QuickTime player on a Mac. QuickTime is a multimedia framework, which is natively installed on most Mac computers. This tutorial explains how to do a screen recording using QuickTime and how to export the video. The full text of this tutorial and a pdf documentation are available from the indico event page.

CERN video content owners

Maria Dimou (for the dissemination), Pedro de Freitas (for the recording and editing).
