DPM General Description

Description

The DPM (Disk Pool Manager) is a lightweight solution for managing disk storage.

The DPM is secure : it supports GSI security and VOMS.

The following presentation gives more details : [DPM description](#)

How to install/administer/user it ?

The DPM can be installed :

- via YAIM, or
- "by hand"

For details, refer to the DPM Admin Guide.

This DPM Administration for Tier2s [↗](#) presentation explains how to run / support a DPM service at your site.

Deployment status

DPM is deployed over 150 sites in EGEE. You can see the current status in LCG.

The largest deployment is about 360 TB [↗](#)!

Questions ?

Please contact GGUS helpdesk for support
