FTS 2.2 Documentation

A review of the FTS documentation.

Release status

Changes from previous version

Check the document describing changes from FTS version 2.1 to 2.2 for the list of new features, changes in service configuration and fixed bugs.

Service deployment model

The FTS service deployment model document describes the impact of outages of service components on the overall service quality, and suggests possible deployment scenarios.

Installation

See FTS Installation.

Configuration

The FTS Configuration document explains the configuration model used by FTS and provides a configuration variables reference.

Administration

See FTS Administration.

Command Line Interface

Complete documentation for the Command Line Interface [↗](#) (man pages).

Notes
