Useful Commands for an FTS Administrator

A list of channel configurations.

```
glite-transfer-channel-list | xargs glite-transfer-channel-list -x
```

Number of active transfers.

There's an oracle database job that populates a table.

```
select CHANNEL_NAME,PENDING_FILES,READY_FILES,ACTIVE_FILES,WAITING_FILES,VO_NAME \  
       from M_STATECOUNTS where TIM > systimestamp - interval '20' minute ;
```
