How to install GSI Security as in LCG-2

GSI Security as in LCG-2 is required on all the LFC and DPM servers and disk nodes.

Here is a step-by-step guide on how to install the GSI Security. However, this guide is only meant to be a help and **we don't garanty that this guide is up-to-date**. Please check the latest YAIM for any change.

Host certificate

Make sure you have a valid host certificate and key : `/etc/grid-security/hostcert.pem` and `/etc/grid-security/hostkey.pem`.

Install the Globus RPMS

The following RPMs should be installed :

• Configuration
