

Error

When using any of the `lfc-*` commands, you get this error:

```
$ lfc-ls /grid
send2nsd: NS009 - fatal configuration error: Host unknown: UNUSED
/grid: Host not known
```

Solution

You need to set the `$LFC_HOST` environment variable to point to your LFC server. For instance:

```
$ export LFC_HOST=mylfc.my.domain
```
