

LFC WLCG home > LFC operations

## Sourcing the ORACLE environment

to get a list of available oracle versions at CERN, use the -l option

```
$ source /afs/cern.ch/project/oracle/script/setoraenv.csh -l
```

to source a specific one, use the -s option

```
$ source /afs/cern.ch/project/oracle/script/setoraenv.sh -s 10201
```

## Follow the instructions

wiki page from the LFC developers

## Remember to check that everything went fine

connect to the database and perform some sql select queries to check that everything looks ok.
