Pending Actions (deadline: 19/06/2007)

Below is a list of actions on the ROC Security Contacts from the OSCT-2 meeting, which are expected to be completed before the OSCT-3 meeting.

- All ROCs:
    - ♦ Update the (coming) private OSCT Website with their ROC Security Contact details
    - ♦ Perform a Security Service Challenge 2 against (all?) sites in their region and give a short debriefing presentation at the next OSCT meeting
    - ♦ Provide feedback on the upcoming ISSeG threat list and questionnaire, as a preparation to the joint training session at EGEE-07
- CERN:
    - ♦ **[Completed]** Investigate possibility of hosting a private website for the OSCT on the CERN central service
    - ♦ **[In progress]** Produce a short "Incident Response procedure" for the sites
    - ♦ **[Completed]** Check with the CERN mail team if it is possible to:
        - ◊ Use/check email signature on the incident lists
        - ◊ Use email encryption on the incident lists
        - ◊ Ensure that posters to the CSIRT list are member of the CONTACT list or else moderate the post
        - ◊ Change the Reply-to field of the CSIRT list
    - ♦ **[Completed]** (but announcement on hold) Create a new incident discussion list populated with the CSIRTS details (same recipients list, but different "FROM" field)
    - ♦ [Background activity] Maintain Pakiti (http://pakiti.sf.net⧉)
    - ♦ **[Completed]** Produce packages for lcg-fw and the tool enabling Grid host to know what remote hosts are part of our Grid
    - ♦ **[Completed]** Clarify and document OSCT-DC activities on the (coming) OCST private website
    - ♦ **[Completed]** Gather and share OSCT Jabber IDs
    - ♦ **[Completed]** Schedule one or more (max 1/month) meeting using Instant Messaging
    - ♦ **[Completed]** Produce a list of wished features for RTIR to be (possibly) useful for the OSCT
    - ♦ **[In progress]** Check with GGUS if appropriate features for incident handling could be implemented
    - ♦ **[In progress]** Coordinate the development of security plugins for common monitoring tools (ex: SAM, Nagios)
    - ♦ Coordinate between CERN, UKI, SEE ROCs to prepare a joint training session with ISSeG
    - ♦ **[Completed]** Check with release/deployment team if it is possible to add the content of the RSS feed on the gLite installation pages⧉ for EGEE admins
    - ♦ Put involvement of VOs in IR process at least on agenda for next meeting
- RUSSIA:
    - ♦ [Background activity] Manage and maintain the content of the OSCT Websites (public and private)
- Asia Pacific (could not attend the meeting): NONE
- FRANCE: NONE
- UKI:
    - ♦ Investigate security plugins for Nagios, Lemon, Ganglia
    - ♦ **[Completed]** Host a repository of security plugins for common monitoring tools
    - ♦ [Background activity] Provide (and update) security best-practice documentation for the RSS feed
    - ♦ Coordinate between CERN, UKI, SEE ROCs to prepare a joint training session with ISSeG
- DECH:
    - ♦ Investigate security plugins for Nagios
- ITALY: NONE
- CE:

- Produce one or more SAM security tests
- Document the process that can be followed by other developers to produce more SAM security tests.
- NE:
  - **[In progress]** Test and provide feedback on RTIR
  - Test and provide feedback on the firewall management tool(s) (status: currently awaiting for CERN)
- SEE:
  - Produce (and update) security best-practice documentation for the RSS feed
  - Contribute to the "Incident Response procedure" for the sites (in collaboration with CERN ROC)
  - [Background activity]Follow-up monthly with sites providing no or incorrect CSIRTs details
  - Coordinate between CERN, UKI, SEE ROCs to prepare a joint training session with ISSeG
- SWE:
  - **[In progress]** Investigate (and possibly implement) new features in RTIR
  - **[In progress]** Provide RTIR training for OSCT according to ROC Security Contacts' availability and interest
  - **[Completed]** Investigate the possibility providing OSCT with Jabber IDs
  - **[Completed]** Investigate the possibility of hosting a (secure?) Jabber conference room for OSCT
