

ROC	Main progress/issues
CERN	• Coordination of ongoing security incidents, work on the incident response procedure.
France	• Security survey: get feedback on the current regional grid security management and prepare the step to ngi. Service reference card: some inputs for amga and ui.
Italy	• Plan to start SSC3 next work. Working on the security monitoring. Asked CNAF to prepare the final report on the incident at CNAF.
UK & Ireland	• Organized an EGEE security training workshop at ISGC 2009, gave a training talk as well. Day-to-day operations.
Germany & Switzerland	• Day-to-day operations.
North Europe	• Day-to-day operations.
South West Europe	• Plan to run SSC3 before the end of June. Waiting for update from GOCDB developer on the ROC security officer list. Day-to-day operations.
South East Europe	• New PPS pakiti server is enabled at CERN. Working on security monitoring, minor bugs found in Pakiti.
Central Europe	• slowly preparing SSC3, hope to launch at the end of this month. Had a discussion on security monitoring with OAT people at CERN, now have a clear view on the monitoring infrastructure. Day-to-day operations.
Russia	

| Asia Pacific |

- EGEE security training workshop at ISGC 2009, at Taiwan. SSC3 is still ongoing, hopefully to complete it this month.
