## PPS Support for SAMAP

PPS has agreed on the 9th on May 2007 to support the Sam Admin's Page (SAMAP)[\[?\]](#) operational tool, as a due counterpart for SAM Admin's features extended to PPS sites.

The support consists in providing one WMS and one BDII able to submit to **all** sites in the GOC DB (Candidate, Uncertified, Suspended, Certified), to be used as fail-over system by SAMAP

CERN\_PPS has started on the 26th of Jun 2007 the implementation of the two services.
