Week of 060724

Open Actions from last week:

- Point castorsrm at srm.cern.ch on Monday (Miguel) - Postponed to Tue.

Chair: James

SMOD: Jan

GMOD: Antonio

Monday:

Log: Gridview still broken.

New Actions:

- Follow up R-GMA status with RAL (Harry)

Discussion:

- castorsrm change to be done tomorrow instead of today
- LSF upgraded again - still a problem, platform following it up.
- There were problems with new CEs (ce105/6) last week and their firewall settings - This stopped jobs being submitted from outside. Now fixed in F/W.
- Nodes will be added to CMS T0Export buffer this week (15 recupered from GSSDATLAS T0)
- RB102 - debug ongoing with CMS - gLite 3.1 RB with some downgrades will be applied. Work tracked on GLiteWMSLog (Di/Yvan)

Tuesday:

Log: ce103 HIGH_LOAD

New Actions:

- Upgrade Oracle instant client to 10.2 on GRIDVIEW machine (Jan)
- Work on how to get correct list of hosts for GRIDVIEW (James/Phool)

Discussion:

- HIGH_LOAD fixed by Ulrich - runaway process
- Platform say we have to live with LSF config problem for now - needs deeper changes in batchd which will need testing first.
- Security patches for ES2/3/4. the one for ES3 includes new glibc - i.e. DB servers. Will be quite intrusive upgrade.
- Postponed castorsrm move since Philippe Charpentier worried that they might be doing direct gridftp to the castorsrm alias, which would then break - to check with DIRAC developers, waiting on a reply from them
- CMS would like to do 500MB/s out of CERN in the next weeks - They will send mail with their plan.

Wednesday

Log: nothing

Actions:

Discussion:

- New node provided for RB tests with CMS.
- Sysadmin training on grid this afternoon. LFC training tomorrow afternoon

Thursday

Log: Problem with Disk Node behind srm-durable-atlas. Will be checked

Actions:

Discussion:

- Platform have provided hotpatch for mbatchd problem - seems ok now.

Friday

Log: problems with volhcb01

Actions:

- Followup on contract status for Grid Machines (James)

Discussion:

- CA RPMs upgraded on all nodes (Jan)
