FAQ

- ServiceChallengeTechnicalFAQ contains FAQs that sites encounter and answer
- ScThreeThroughputHowTo contains details for site admins to run the transfers on their channels for the duration of the Service Challenge.
- HowToFindSCResources contains details for T0/T1/T2 sites on how to publish their resources that are contributed to the Service Challenge, and for users, it shows how they can find and select them.

Logs for Past / Current Challenges, Planning for the next...

- ProgressLogs are for tracking the progress of sites throughout the service challenges.
- InterventionLogs for logging interventions (temporary solution).
- FtsMerryChristmas0607 for logging operational issues during the Christmas holiday period 2006/2007

Tier Zero Information

- TierZeroInformation contains details on the location and configuration of hosts and services provided for SC3 at CERN.
 - ◆ BDIIConfigurationSetup
 - ◆ FtsConfigurationSetup13
 - ◆ MyproxyConfigurationSetup13

Tier One Information

- TierOneContactDetails
- TierOneInformation contains links to the externally maintained status pages of all the sites.
- TierOneConfiguration collects data on SRM endpoints and paths that can be used for writing data at the Tier-1 sites.

Tier Two Information

- TierTwoInformation contains links to the external maintained status pages of the sites.

FTS channel setup

The following document describes which sites are responsible for what transfers, and describes what channels a site should set up:

- SC4 FTS Setup Plan (Word docu) [↗](#)

For more details on this please look at FtsRelease15.

Experiment Plans

- ComputingModels
- ALICEResourcesAndPlans
- ATLASResourcesAndPlans
- CMSResourcesAndPlans
- LHCbResourcesAndPlans
- SC3 Detailed planning workshop (June 13-15 2005) [↗](#)

Software Information

- FtsRelease14 contains support information on the `Glite File Transfer Service - FAQs, Install Guides, ...`
- LfcInformation contains information about the LFC in the Service Challenge context, as well as a pointer to the latest documentation
- DpmInformation contains information about the DPM in the Service Challenge context, as well as a pointer to the latest documentation
- Oracle Instant Client contains instructions on how to build an oracle-instantclient "standard" RPM
- http://cern.ch/pmendez/fts_transfer_test.htm contains the results of the daily FTS transfers

- FtsLoadGenerator contains information on the load generators that can be used during SC3

Internal Service Information

- Internal Pages
