Adding a new VO Admin to a VO when Existing are Lost.....	1
---	---

Adding a new VO Admin to a VO when Existing are Lost.

For doing this, you need root in the VOMS machine and the public certificate of the new VO admin.

The procedure is as simple as copying the cert to `/tmp/usercert.pem/` and then run `sh =/etc/voms-admin-puppet/voms-admin-add-admin-<vo-name>.sh=`
