- The meeting will be held on **Tuesday** instead.

## Tuesday

Attendance:

- local: Raja, Maarten, Jan, Jerome, Stefan
- remote: Peter, Xavier, Rolf, Wei-Jen, Oliver, Onno, Lisa, Lucia, Rob, Pepe, Gareth, Jeremy, Roger

Experiments round table:

- ATLAS reports (raw view) -
  - ◆ quiet after Easter weekend, NTR
- CMS reports (raw view) -
  - ◆ LHC / CMS
    - ◇ Rereconstruction of 2012 data in the tails, load at the T1 sites small
  - ◆ CERN / central services and T0
    - ◇ Frontier system under high load over the weekend, FastSim workflow was mis-configured using the FullSim job splitting causing very short jobs with a lot of access to the SQUID caches to access alignment and calibration constants. If you see failures in SAM tests and/or Hammercloud tests because of failed access to Frontier,

please open a savannah ticket to get the SiteReadiness calculation corrected.
