Week of 130812

Daily WLCG Operations Call details

To join the call, at 15.00 CE(S)T Monday to Friday inclusive (in CERN 513 R-068) do one of the following:

1. Dial +41227676000 (Main) and enter access code 0119168, or
2. To have the system call you, [click here](#)

The scod rota for the next few weeks is at [ScodRota](#)

WLCG Availability, Service Incidents, Broadcasts, Operations Web

Monday

Attendance:

- local: Simone (SCOD), Ivan (WLCG Monitoring), Luca (CERN Databases), Luca (CERN Storage)
- remote: Dimitri (KIT), Sang-Un (KISTI), David (CMS), Michael (BNL), Tiju (RAL), Matteo (CNAF), Wei-Jen (ASGC), Onno (NL-T1), Pavol (ATLAS), Rob (OSG), Ulf (NDGF)

Experiments round table:

- ATLAS reports (raw view) -
 - ◆ T0
 - ◇ CERN-PROD GGUS:96524 [FTS2 channel CERN->ASGC](#) again stuck at 04:00 in the morning on Friday, after some investigation some spurious agent was removed in the afternoon, but it took around 48 hours, until backlog was cleared.
 - ◇ CERN EOS GGUS:96519 [Atlas EOS instance](#) had problems (memory issues), restarted.
 - ◆ T1
 - ◇ FZK (GGUS:96245 [FZK](#)) : Transfer problems from/to FZK with different sites affecting a fraction of transfers. Under investigation.
- CMS reports (raw view) -
 - ◆ MC production and reconstruction continue
 - ◆ GGUS:96546/INC:356501 [CMSEOS files](#) not manifesting in global xrootd redirector, but are visible directly in [eoscms.cern.ch](#) -- possibly similar issue on May 30.

◇ Luca: cmsd daemon had a problem in reading a config file after a restart. Fixed.

- ◆ GGUS:96504 [↗](#) User with possibly expired certificate
- ◆ GGUS:96482 [↗](#) Transfers from Caltech to T1_UK_RAL -- investigation continues.
- ◆ GGUS:96559 [↗](#) Hammercloud failures reading files at ASGC -- in progress
 - ◇ Wei-Jen: ASGC failed HC due to an expired host certificate. A new one has been requested.

- ALICE -
 - ◆ NTR

- LHCb reports (raw view) -
 - ◆ NTR

Sites / Services round table:

- NL-T1: SARA had one pool node in HW maintenance this morning. Some files were unavailable.
- ASGC: scheduled downtime tonight for 1 day for network hardware upgrade.
- NDGF: problem with SRM during the weekend. 1/2 hour downtime between saturday and sunday

AOB:

Thursday

Attendance:

- local: Simone (SCOD), Ivan (WLCG Monitoring), Luca (CERN Databases), Luca (CERN Storage), Alex (CERN Grid Services), Vitor (CERN Grid Services)
- remote: Michael (BNL), WooJin (KIT), David (CMS), John (RAL), Jeremy (GridPP), Rob (OSG), Wei-Jen (ASGC), Ulf (NDGF)

Experiments round table:

- ATLAS reports (raw view) -

- CMS reports (raw view) -
 - ◆ Relatively light activity -- primarily upgrade MC production
 - ◆ No new GGUS tickets -- GGUS:96482 [↗](#) (Caltech/RAL transfers) waiting for more info, CMS transfer team will follow up.

- ALICE -
 - ◆ NTR

- LHCb reports (raw view) -
 - ◆ Mostly MC productions ongoing, tail of reprocessing and restripping campaign
 - ◆ T0:
 - ◇ CERN: NTR
 - ◆ T1:
 - ◇ Recovered from network interruptions at RAL earlier in the week
 - ◇ Local transfer failures at IN2P3 and SARA resolved (SRM overloads?)

Sites / Services round table:

- WLCG Monitoring:

- ◆ WLCG Transfers Dashboard: a new dashboard prototyping the future evolution of the WLCG Transfers Dashboard has been deployed. <http://dashb-wlcg-transfers-new.cern.ch/>
 - ◇ follows a hierarchical architecture designed to provide a common feature set independent of transfer protocol, while delegating to FTS and XRootD Dashboards for protocol-specific features
 - ◇ includes monitoring of ALICE XRootD data traffic.
 - ◇ The current production WLCG Transfers Dashboard remains available. <http://dashb-wlcg-transfers.cern.ch/>
- ◆ ATLAS DDM Dashboard: monitoring of on-demand transfers for ATLAS (dq2-get / dq2-put) has been deployed to the integration version of ATLAS DDM Dashboard (<http://dashb-atlas-data-soup-tbed.cern.ch/ddm2/#activity=%28%29>). This feature is currently undergoing validation by ATLAS before release to production.
- CERN Storage:
 - ◆ Tue 20 there will be the upgrade of CASTOR oracle backend. Transparent.
- Grid services:
 - ◆ the batch farm nodes will be reinstalled in a rolling fashion in the next days (transparent)

AOB:
