## Membership List

Membership List

## Topics

The Data and Storage TEGs have combined and enumerated an official list of topics; hopefully, these are mostly non-overlapping. The original draft topics list has been moved to a separate page.

## Questions for Experiments

The questions list for LHC experiments.

- Answers from ALICE

## Face-to-Face Meeting

More information here.

## Per-topic statement drafts

Post face-to-face meeting, we have been tackling each topic area, one-at-a-time. The idea will be to take the statements for each topic and join them together into one master document.

- Storage Management Interfaces.
- Transfer Protocols
- Split of archive and disk cache
- Layer diagram examples
