Figure	Description
<p style="text-align: center;"><b>Single Top Quark Production</b></p>	<p>Summary of the ATLAS and CMS Collaboration measurements of the single top production cross-sections in the t-channel at 8 TeV showing the best result from each collaboration. The measurements are compared to a theoretical calculation based on NLO QCD complemented with NNLL resummation computed assuming a top mass of 172.5 GeV.</p> <p>PNG PDF</p> <p>July 2014</p>
