Analysis preservation

The goal of this work package is to develop a framework where users can archive all the material of their analysis, from data to final publication. This work package is done in collaboration with Cern-IT (Invenio team) and CMS.

Tasks

- WP4.T1: Develop a framework for long term preservation of published analysis. From the analysis twiki page, collect and archive in a central area final and intermediate internal notes, public notes, paper, code, instructions, final ntuples, analysis details.
- WP4.T2: Test on real analysis

Deliverables

- WP4.D1: Analysis preservation framework.

People

WP4.T1: Tibor Simko

WP4.T2: Patrick, Silvia
