

LHCb Book-keeping

This page collects links to information about the LHCb book-keeping system.

Accessing the book-keeping

If you have installed the certificate in your web browser, you can also access the book-keeping web interface[↗]. Note that some browsers may flag the book-keeping web interface as not secure and block you from accessing it; you will have to add an exception. In Firefox, this means clicking the lock icon to the left of the URL and following the instructions.

Note: The access of the Book-keeping from lxplus is no longer supported. You can still access to the Book-keeping from Ganga. All the missing functionalities are implemented in the web user interface. A tutorial on using the book-keeping GUI was given on 15th June 2009 (see slides[↗]).

Generating an XML file catalog

See GenXMLCatalog. Note that the GenCatalog script is obsolete.

Book-keeping documentation

- See Zoltan Mathe's thesis (CERN-THESIS-2012-156[↗]) *Feicim: A browser and analysis tool for distributed data in particle physics*
- See also Bookkeeping administration[↗] documents
- See also the book-keeping working group pages from 2007
