

# Procedure to Switch on/off crates of Control and Temperature Boards

**The Marathon Controller Cards should be included in PVSS soon, such the the rather tedious procedure below should not be necessary anymore.**

1. Take an Online Notebook which has the WIENER USB Power Supply Control is installed (e.g. portable-04 or portable-05)
2. Go to the rack D3E04.
3. **Only in case of switching on:** Switch on AC/DC power converter of VELO or Pile-Up.
4. Connect notebook and Marathon Controller (of VELO or Pile-Up as labeled) via a USB cable.
5. Start the WIENER USB Power Supply Control by double-clicking the corresponding icon on the desktop.
6. Select "All on/off" from the menu "Switch ..." (for switching on the Pile-Up: "Group1 on")
7. **Only in case of switching off:** Switch off AC/DC power converter of VELO or Pile-Up.
