## LHCb, Boole, Brunel

## Gauss (Hubert for Gloria)

- Gloria is preparing a DC06 release with new event types for the end of the week.

# Round Table

## **Hubert**

Released new version of Bender

## **Philippe**

Few issues have been raised during the software week:

- ◇ Usage of Python options: to be investigated
- ◇ Merge of text output (log) files in Ganga for a splitted job

# Practice Talk

## LHCb [computing] Strategy (Nick)

The preliminary version of the presentation [is](#) attached to the agenda.
