

ErrorChanges < LHCb < TWiki

-- MarcosAntonioSecoMiguel - 21 Nov 2007

Dirac Module	Current error description	Proposal for Fixed part
Agent.py	Agent stopped because of internal error	
Agent.py	AgentBase: execute method should be implemented in a subclass	
AncestorFilesAgent.py	Failed to get ancestor LFNs	
AncestorFilesAgent.py	Failed to get input data from JobdB for %s	Failed to get input data from JobdB
BaseClient.py	URL is malformed	
ConfigurationClient.py	gConfig.getValue for invalid value	
ConfigurationData.py	Can't load %s file	Can't load file
ConfigurationData.py	Cannot backup configuration data file	
FTSRequest.py	FTSRequest.__resolveFTSEndpoint: Failed to find FTS endpoint, check CS entry for %s.	FTSRequest.__resolveFTSEndpoint: Failed to find FTS endpoint
FTSRequest.py	FTSRequest.isDetailedQueryReady: The FTS GUID must be supplied in the FTSRequest.	
FTSRequest.py	FTSRequest.isDetailedQueryReady: The FTS server must be supplied in the FTSRequest.	
FTSRequest.py	FTSRequest.isDetailedQueryReady: The LFNs must be supplied in the FTSRequest.	
FTSRequest.py	FTSRequest.isSummaryQueryReady: The FTS GUID must be supplied in the FTSRequest.	
FTSRequest.py	FTSRequest.isSummaryQueryReady: The FTS server must be supplied in the FTSRequest.	
FTSRequest.py	%s is missing Source or Destination SURL	Missing Source or Destination SURL
InputDataAgent.py	Failed to create LcgFileCatalogClient	
InputDataAgent.py	Failed to get input data from JobdB for %s	Failed to get input data from JobdB
JobDB.py	Failed to add job str(jobID) to the Task Queue	Failed to add job to the Task Queue
JobDB.py	Failed to delete job str(job) from JobdB	Failed to delete job from JobdB
JobDB.py	Failed to get priority of the TaskQueue str(queueId)	Failed to get priority of the TaskQueue
JobDB.py	Failed to get the MaxRescheduling limit	
JobDB.py	Failed to update priority of the TaskQueue str(queueId)	Failed to update priority of the TaskQueue
JobDB.py	JobDB.addJobToDB: Error in JDL syntax	addJobToDB: Error in JDL syntax
JobDB.py	Maximum number of reschedulings is reached for job %s	Maximum number of reschedulings is reached
JobDB.py	Using default value str(self.maxRescheduling)	Using default value
JobLoggingDB.py	Incorrect date for the logging record	
JobPathAgent.py	Could not obtain original JDL for job %s	Could not obtain original JDL
JobPathAgent.py	Failed to get input data from JobdB	Failed to get input data from JobdB
JobSanityAgent.py	Failed to create LcgFileCatalogClient	
JobSanityAgent.py	Failed to get input data from JobdB for %s	Failed to get input data from JobdB
LcgFileCatalogClient.py	Failed to get the /DIRAC/Site	
LcgFileCatalogCombinedClient.py	Failed to get the /DIRAC/Site	
MonitoringClient.py	Can't register activities	

ErrorChanges < LHCb < TWiki

MonitoringClient.py	Can't send activities marks	
MySQL.py	_escape_string: Could not escape string	
MySQL.py	_getConnection: Fails to get connection from Queue	
MySQL.py	_getFields: %s	
MySQL.py	_query:	
MySQL.py	_update: "%s".	
Optimizer.py	Failed to get a job list from the JobDB	
Optimizer.py	JobDB returned null value for %s %s	JobDB returned null value
Optimizer.py	Optimizer: checkJob method should be implemented in a subclass	
OptimizerFIFO.py	Failed to get a job list from the JobDB	
OptimizerFIFO.py	Failed to get parameters for job %d	Failed to get parameters for job
OptimizerFIFO.py	Failed to obtain a task queue with the following requirements	
OptimizerFIFO.py	Illegal JDL for job %d	Illegal JDL for job
OptimizerFIFO.py	JDL not found for job %d	JDL not found for job
OptimizerFIFO.py	The job will be marked problematic	
OptimizerFIFO.py	requirements	
ProcessingDBAgent.py	Failed to create ProcDBFileCatalogClient	
ProcessingDBAgent.py	Failed to get input data from JobdB for %s	Failed to get input data from JobdB
ProductionRepositoryHandler.py	Publishing Production failed:	
ProductionRepositoryHandler.py	Publishing workflow failed:	
ProxyRepositoryDB.py	Proxy Insert Failed for DN="%s" and Group="%s"	Proxy Insert Failed
ProxyRepositoryDB.py	Proxy Update Failed for DN=%s and Group=%s	Proxy Update Failed
RRDManager.py	Activity type %s is not known	Activity type not known
Refresher.py	Can't publish to master server	
Refresher.py	Can't refresh configuration from any source	
Refresher.py	Can't update from master server	
Refresher.py	Error while updating the configuration	
ReplicationScheduler.py	ReplicationScheduler._execute: Failed to add File %s to Channel %s.	Failed to add File to Channel
ReplicationScheduler.py	ReplicationScheduler._execute: Failed to get a request list from RequestDB: %s.	Failed to get a request list from RequestD
ReplicationScheduler.py	ReplicationScheduler._execute: Failed to get number of sub-requests: %s.	Failed to get number of sub-requests
ReplicationScheduler.py	ReplicationScheduler._execute: Failed to get replica infomation: %s.	Failed to get replica infomation
ReplicationScheduler.py	ReplicationScheduler._execute: Failed to get target SURL: %s.	Failed to get target SURL
ReplicationScheduler.py	ReplicationScheduler._execute: Failed to obtain sub-request attributes: %s.	Failed to obtain sub-request attributes
ReplicationScheduler.py	ReplicationScheduler._execute: Failed to obtain sub-request files: %s.	Failed to obtain sub-request files
ReplicationScheduler.py	ReplicationScheduler._execute: %s does not have a replica at %s.	File replica does not exist
Request.py	Failed getting request from %s	Failed to get request
Request.py	Failed setting request at %s	Failed to set request
Request.py	Failed to get request	Failed to get request

ErrorChanges < LHCb < TWiki

RequestHandler.py	Error while receiving file description	
RequestHandler.py	Error while receiving function arguments	
RequestHandler.py	Getting RequestDB summary failed	
RequestHandler.py	Getting request failed	Failed to get request
RequestHandler.py	Getting request failed	Failed to get request
RequestHandler.py	SGetting RequestDB summary failed	
RequestHandler.py	Setting request status failed	Failed to set request status
RequestHandler.py	There's no types info for method export_%s	There's no types info for method
RequestHandler.py	You haven't finished receiving the file	
SRM2Storage.py	SRM2Storage.__init__: Failed to import gfal: %s	Failed to import gfal
SRM2Storage.py	SRM2Storage.__init__: Failed to import lcg_util: %s	Failed to import lcg_util
SRM2Storage.py	SRM2Storage.getTurls: Did not obtain results with gfal_get_results.	Did not obtain results with gfal_get_results
SRM2Storage.py	SRM2Storage.getTurls: Failed to get any turls in request.	Failed to get any turls in request
SRM2Storage.py	SRM2Storage.getTurls: Failed to get turl for %s: %s.	Failed to get turl
SRM2Storage.py	SRM2Storage.getTurls: Failed to initialise gfal_init: %s	Failed to initialise gfal_init
SRM2Storage.py	SRM2Storage.getTurls: Failed to perform gfal_turlsfromsurls: %s	Failed to perform gfal_turlsfromsurl
SRM2Storage.py	SRM2Storage.ls: Did not obtain results with gfal_get_results.	Did not obtain results with gfal_get_results
SRM2Storage.py	SRM2Storage.ls: Failed to perform gfal_ls: %s	Failed to perform gfal_ls
SRM2Storage.py	SRM2Storage.put: Failed to put %s: %s.	Failed to put file
SRM2Storage.py	SRM2Storage.remove: Did not obtain results with gfal_get_results.	Did not obtain results with gfal_get_results
SRM2Storage.py	SRM2Storage.remove: Failed to perform gfal_deletesurls: %s	Failed to perform gfal_deletesurls
SRM2Storage.py	SRM2Storage.removeDir: Failed to list the contents of %s.	Failed to list the contents of dir
SRM2Storage.py	SRM2Storage.removeDir: The supplied path was not a directory.	The supplied path was not a director
SRM2Storage.py	SRM2Storage:ls: Failed to initialise gfal_init: %s	Failed to initialise gfal_init
SRM2Storage.py	SRM2Storage:remove: Failed to initialise gfal_init: %s	Failed to initialise gfal_init
SandboxClient.py	Can't find file fname	Can't find file
SandboxClient.py	Failed to send directory bname to Sandbox service for job `jobID`	Failed to send directory to Sandbox service
SandboxClient.py	Failed to send file bname to Sandbox service for job `jobID`	Failed to send file to Sandbox servic
SandboxDB.py	Using default value str(self.maxSize)	Using default value
Script.py	There were errors when loading configuration	
Server.py	Invalid action proposal	
StorageElement.py	StorageElement.getStorageElementOption: %s not defined for %s.	
StorageElement.py		

ErrorChanges < LHCb < TWiki

	StorageElement.getStorageParameters: %s found in %s protocols list but no object found.	Property found in site protocols list but no object found
StorageElement.py	StorageElement.getStorageParameters: %s protocol is not supported for %s.	protocol is not supported at site
StorageElementHandler.py	Failed to get the base path	
StorageElementHandler.py	Failed to remove directory %s	Failed to remove directory
StorageFactory.py	StorageElement definition not complete for %s: StorageName option not defined.	
StorageFactory.py	StorageElement.__getProtocolDetails: Failed for %s:%s	
StorageFactory.py	StorageElement.__getProtocolDetails: The 'Access' option for %s:%s is neither 'local' or 'remote'.	
StorageFactory.py	StorageElement.__getProtocolDetails: The 'Protocol' option for %s:%s is not set.	
StorageFactory.py	StorageElement.__getProtocolDetails: The 'ProtocolName' option for %s:%s is not set.	
StorageFactory.py	StorageFactory._getConfigStorageProtocols: Failed to get sections for %s: %s	
StorageFactory.py	StorageFactory._getStorageOptions: Failed to get options for %s: %s	
StorageFactory.py	StorageFactory._storage: Failed to import %s: %s	
StorageFactory.py	StorageFactory._storage: Failed to instantiate %s(): %s	
StorageFactory.py	StorageFactory.getStorage: Protocol must be supplied	
StorageFactory.py	StorageFactory.getStorage: ProtocolName must be supplied	
StorageFactory.py	StorageFactory.getStorage: StorageName must be supplied	
SystemLoggingDBCleaner.py	Agent could not initialize	
SystemLoggingDBCleaner.py	Could not erase the requested records	
SystemLoggingDBCleaner.py	Could not query the SystemLoggingDB	
TaskQueueAgent.py	Failed to get a job list from the JobDB	
TaskQueueAgent.py	Failed to get parameters for job	Failed to get job parameters
TaskQueueAgent.py	Failed to obtain a task queue with the following requirements	
TaskQueueAgent.py	Illegal JDL for job	Illegal JDL
TaskQueueAgent.py	JDL not found for job	JDL not found
TaskQueueAgent.py	The job will be marked problematic	
TaskQueueAgent.py	The job will be marked problematic	
TaskQueueAgent.py	requirements	
Tests.py	Failed test:	
ThreadSafeSSLObject.py	ERROR while executing = %s(%s) (%s)	ERROR while executing
Watchdog.py	Could not obtain output from running application thread	
Watchdog.py	Turning off job peeking for remainder of execution	
Watchdog.py	Watchdog could not obtain standard output from application thread	

ErrorChanges < LHCb < TWiki

configuration.py	Section does not exist	
configuration.py	There was an error with modified configuration %s	There was an error with modified configuration
credentials.py	Apache is not properly configured	
dirac-agent	There were errors when loading configuration	
dirac-configuration-cli.py	Can't retrieve updated data from server.	
dirac-configuration-cli.py	Couldn't connect to %s (%s)	Couldn't connect to service
dirac-service	There were errors when loading configuration
