The Simulation phase of Gauss

This page will be populated with Frequently Asked Questions concerning the Simulation phase of Gauss, for example:

- how to control simulation settings (physics and cuts)
- how to simulate a given geometry
- how to use the Geant4 visualization in Gauss

Please feel free to add topics.

FAQs:

- How is the geometry simulated, how to change it and how to apply misalignment in Gauss
 - How to visualize the geometry seen by Geant4 in Gauss
 - How to check Overlaps seen by Geant4 in Gauss
-

If you did not find an answer to your question you can add it here:

Current user-submitted FAQ's can be found here
