

## How to Browse the LHCb Conditions Database

This page has been superseded by the CondDBBrowser documentation

For more details see the Conditions Database documentation here

\* SetupProject LHCb \* CondDBBrowser.py &

- Once the browser opens
  - ◆ From the menu "DataBase" select "Open", a dialog appears.
  - ◆ In "DBLookup Alias" select "SQLite file" (the last entry), then select the file you want to use (LHCBCOND.db).
  - ◆ In the field "Database Name" put LHCBCOND (in one file you can have many databases).
  - ◆ Select if you want to open it in read-only or read-write mode (click the button).
  - ◆ Finally click "Open DB".
  - ◆ Click on arrows in left-side panel, and navigate the tree structure to find the detector elements you're interested in
