

System dependencies

In order to ease the installation of dependencies on SLC5 and SLC6 systems, some RPMs with the list of dependencies have been prepared. See more information here for SLC5:

<https://twiki.cern.ch/twiki/bin/view/LCG/SL5DependencyRPM>

The SLC6 version is being prepared and the test version can be installed with the following command:

```
yum --enablerepo=slc6-testing install HEP_OSlibs_SL6
```

Installation

Follow the normal recipe at:

SoftwareInstallation
