Open data

The LHCb Open Data initiative is managed through the Computing Group. All relevant information can be accessed from this webpage .

Masterclass

The LHCb Masterclass page includes all required resources, and will be updated with the 2021 schedule when this is ready.

Useful resources

In addition to the main 'Outreach materials' page linked from the LHCb home page, we also have a less formal Twiki page for sharing resources for outreach purposes.

Collaborators are invited to upload any useful material (presentations, posters, photos, graphics) which they have prepared for previous outreach events.
