

Reporting bugs in LHCb software

You should report bugs, make feature requests, or track your own tasks using one of the following Jira trackers:

- [Gaudi](#)
- [LBCORE](#) for LHCb Core Software
- [LHCbps](#) for LHCb application software
 - ◆ For Gauss, use [LHCbGAUSS](#)
- [LHCb software deployment tracker](#) for problems during deployment of specific project releases
- [LHCbDirac](#)

Reporting bugs in other software products

The following are links to the bug tracking systems of software products used in LHCb but maintained by a wider community. This list will never be complete, please feel free to add to it

- The experiment neutral part of DIRAC is tracked in [github](#). You will be asked to register with github first.
- [ROOT](#)

Feature requests for Jira itself

This [Jira task](#) is a placeholder for features that we would like implemented in the CERN instance of Jira
