# Timetable for the use of the HLT Farm during Winter Shutdown 2017 & First MD/TS of 2017

This timetable allows us to keep track of the alignment activities taking place on the HLT farm.

During the winter shutdown, the MC production is the main user of the farm. If stop the MC production is needed (as it is incompatible with the other tasks, e.g. BW division and Calo calibration), the Online team (Beat Jost, cc Silvia Borghi and Barbara Sciascia) should be contacted in advance (1-2 days best, few hours at least).

Please reload the page before editing the timetable.

## List of users

- MC production: Philippe Charpentier, Gloria Corti, Stefan Roiser
- Bandwidth division: Eric Van Herwijnen
- VELO: Silvia Borghi, Giulio Dujany
- Tracker: Maurizio Martinelli, Zhirui Xu, Lucia Grillo, Francesca Dordei
- RICH: Claire Prouve, Paras Naik, Sam Maddrell-Mander, Matt Chapman
- Muon: Stefania Vecchi
- Calo: Daria Savrina, Jean-Francois Merchand, Zhirui Xu
- Online development and testing: Roel Aaij, Clara Gaspar, Beat Jost, Markus Frank

## Calendar

If you do not have enough time to make your tests, and the table is already full, send an email to the relevant people to negotiate HLT farm time.

## Winter Shutdown
