NOTE

This documentation is outdated and has been moved to an updated version on https://linuxops.web.cern.ch/. Whatever you may find here is kept for historical purposes, but these docs are no longer relevant for many reasons after the services evolution and improvements.

• FAQs: http://cern.ch/service-portal - Frequently Asked Questions ... and Answers
• PXE Boot / AIMS2 workaround - for broken BIOSes
• Linux Support Services documentation - internal service documentation.
• Smart Cards revisited - in 2012 - pilot documentation for upcoming CERN Smart Cards
• SSH at CERN: FAQ - How to login, pass credentials .. known problems ... etc.
• AIMS2 - Automated Installation Management Service (version 2). or how your linux system can be network-installed.
• LinuxForControls
• Enable linux support to access your machine
• BuildingRPMswithKoji Building RPMs with Linux support Koji instance.
• OpenSSLCheatsheet
• Slc6LiveHowto
• How to access CERN SSO protected pages from command line
• People - who is who in linux support
• DistccAsAService - how to configure a distcc cluster at CERN with puppet/openstack

Site Tools of the LinuxSupport Web

• (More options in WebSearch)
• WebChanges: Display recent changes to the LinuxSupport web
• WebIndex: List all LinuxSupport topics in alphabetical order. See also the faster WebTopicList
• WebNotify: Subscribe to an e-mail alert sent when something changes in the LinuxSupport web
• WebStatistics: View access statistics of the LinuxSupport web
• WebPreferences: Preferences of the LinuxSupport web (TWikiPreferences has site-wide preferences)
