Approved Jet/EtMiss Plots

Introduction

I, Adam Gibson, have created this page to provide documentation of four plots I'd like to show. If you'd like, once they're approved, you could copy the whole page to <https://twiki.cern.ch/twiki/bin/view/Atlas/PhysicsResults>, deleting these lines of course. The style is taken from Andreas' templates at <https://twiki.cern.ch/twiki/bin/view/Atlas/ApprovedDetectorPlots>. The original creators, the tile and Jet/EtMiss conveners, and physics coordination have all approved the plots. They await approval from LAr, who will consider them on October 21.

The Jet/EtMiss commissioning and performance plots below are approved to be shown by ATLAS speakers at conferences and similar events.

Please do not add figures on your own. Contact the Jet/EtMiss project leader in case of questions and/or suggestions.

Figures
