Migration of NUCLEUS Confluence wiki to CERN TWiki

cryocluster confluence	twiki	version 2021-04-20
Collaboration	Collaboration	OK
Collaboration Members	Collaboration_Members	OK
Publications, Conferences, Talks	Publications Conferences Talks	See 1), 2)
Meetings	Meetings	See 1), 3), 4), 5)
Experiment components	Experiment components	See 5)
Simulation	Simulation	See 1), 5)

If a top page is not here, the migration is OK.

Notes:

1) Pages in Confluence with attachments included with "Small/Medium/Large Thumbnail" do not have (most of the time) the attached files. See for example

[DPG Spring Meeting](#) versus [DPG Spring Meeting](#)

Sometime, text after a such attachment is no more visible [Muon Veto geometry](#) versus [Muon Veto geometry](#)

If there is no fix in the plugin import, I can change before the next migration in the Confluence Wiki the "Small/Medium/Large Thumbnail" to "Link" which seems to work.

2) The pages under Confluence "Theses" ("PhD", "Master/Diploma", etc) seems to have attachments messed up [PhD](#) versus [TWiki PhD](#). The TWiki page has all three attachments, while the Confluence page has only one attachment, the other being at "Master/Diploma" Confluence page. These pages use in Confluence selection of attachments via the "label" of the attachment. It is however not much work to be fixed in TWiki by hand, but it would be nice if the attachments are attached to the correct page.

3) The mention of users in Confluence (e.g. "@Ghete") is not converted in the TWiki, see [2020-03-27](#) versus [2020 03 27](#). I doubt it is possible to fix it in the import plugin, and it can be fixed by hand.

4) Attachments included with the Confluence macro "Attachments" are ignored in the text, and files are not attached. Present in many pages. See e.g.

[2020-10-08](#) versus [2020-10-08](#)

5) Attachments missing, see

[2020-01-15](#) versus [2020 01 15](#)
