DIRAC Project

Introduction

The *DIRAC* (Distributed Infrastructure with Remote Agent Control) project is a complete Grid solution for a community of users such as the LHCb Collaboration. DIRAC forms a layer between a particular community and various compute resources to allow optimized, transparent and reliable usage.

An overview of the DIRAC system can be found [here](#).

Installation

User client interface

Services host installation

Special installations

DIRAC Systems

- Framework
- DiracConfiguration
- DiracMonitoring
- DiracAccounting
- DiracSystemLogging
- DiracWorkloadManagement
- DiracRequestManagement
- DiracDataManagement
- DiracStager
- DiracProductionManagement

Configuration

LHCb DIRAC Services

Web Portal
